Description

Alpamayo with its sublimely steep and elegant lines, Alpamayo undoubtedly deserves its status as one of the world's most beautiful peaks. Situated in the heart of the Cordillera Blanca, its impressive, fluted ice coat is a unique spectacle, ranking it as a coveted peak alongside Ama Dablam, the Matterhorn and Khan Tengri.

We recommend take acclimatization seriously, first by climbing to the summit of Huarapasca (5415 m) or Yanapccha Mountain 5460 m. On this mountain you can take a mountaineering course day to see ice climbing and rappelling skills, which will help you be safe and ready for the alpamayo. Contact Us
